SHINING SUN

PIECES FROM MASTER CRAFTSMEN

ARTISANAL WORK COMBINED WITH INNOVATIVE TECHNOLOGY

It is the artisanal details that distinguish ComTür from other manufactures – proof of the skills and perfectionist standards of our staff and carpenters. We combine traditional artisanal ability with the most modern technology in order to produce doors that delight.

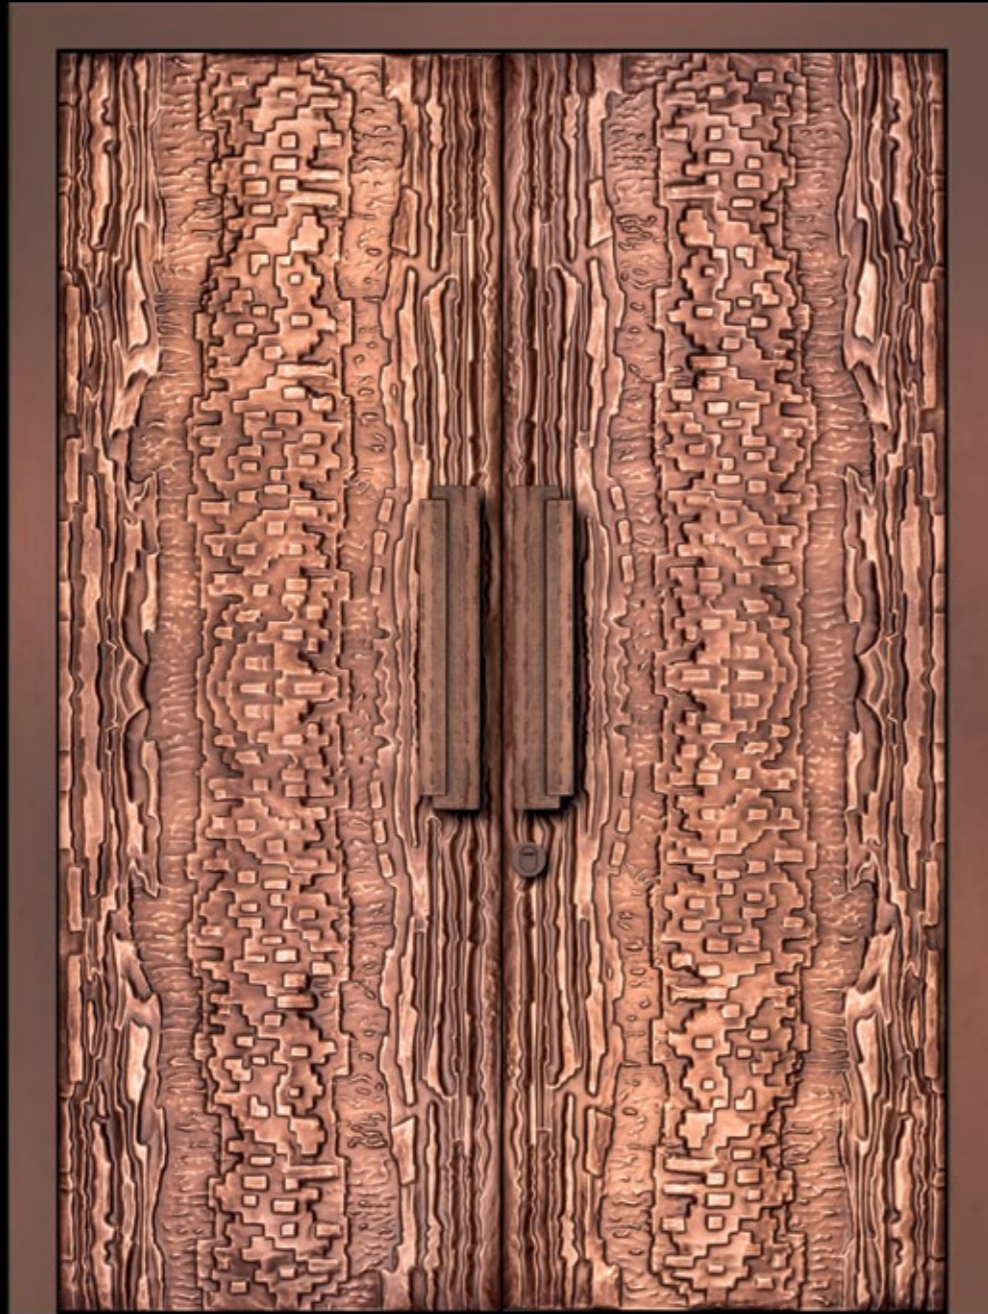

COMTÜR PROMISE OF QUALITY

2-LEAF DUOTHERM TECHNOLOGY

The exterior and apartment door systems from ComTür are equipped with two-leaf Duotherm technology (7-star quality). Dimensionally stable with integrated climate compensation zone and high soundproofing and heat insulation properties.

GALAXY II

TRADITION MEETS TECHNOLOGY

ENDURING VALUES

Craftsmanship and tradition driven by passion. Expert craftsmanship combined with state-of-the-art production technology provides the basis for the creation of top-class doors. The ComTür exterior doors are developed for extreme weather conditions with a torsionally rigid door construction to resist wind loads, air permeability and tight-fitting to keep out driving rain.
